Sheer
Driving Pleasure

Length: 4,580 mm.
Width: 1,782 mm.

Passion for detail:
Infinite.

Zero to 100 km/h: 5.5 seconds.
From eye to heart: instantaneous.

The essential
equation:
6 cylinders +
2 turbochargers =

Pure adrenaline.

Deeply moving – even at 0 km/h.

4 upholstery choices. 6 trim finishes.
8 upholstery colours. One individual style.

1 kilometre?
10 kilometres?
100 kilometres?

Distance is no object,
when pleasure is the principle.

This is how much we've invested.

The pleasure you get from driving a BMW is the result of fine engineering – always setting the benchmark because it is based on much more than engine power. This is the tradition behind BMW EfficientDynamics. It includes the visionary CleanEnergy hydrogen-powered engine, already used in a number of completely emission-free BMW 7 Series saloons. Also going into production soon is the BMW ActiveHybrid – an intelligent, demand-oriented engine combining combustion and electronics. And every BMW already includes a technology package as standard that boosts dynamics even further whilst simultaneously reducing fuel consumption and CO₂ emissions.

High Precision Injection

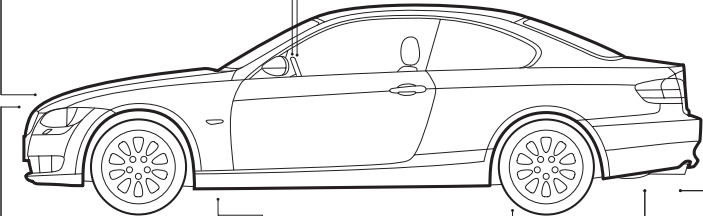

In this cutting-edge generation of petrol direct injection, the Piezo injectors are positioned very close to the spark plugs. They inject the fuel at high pressure and with extreme precision. The injectors' central positioning means only part of the combustion chamber needs to be filled with an ignitable petrol-air mixture. The engine can then run "leanly" (not for 335i) and so efficiently, precisely in the heavily used moderate load range. (320i, 325i, 330i, 335i)

Auto Start/Stop function

BMW four-cylinder engines with 6-speed manual transmission automatically shut down when the vehicle is stationary, for example at a red light or in a jam, when the driver activates the clutch and switches to neutral. The engine restarts as soon as the clutch is activated again. This innovation significantly reduces fuel consumption especially in city traffic. (320i, 320d)

Shift Point Display

Timely gear shifts are one of the most effective and easiest ways to save fuel. This is where Shift Point Display in conjunction with 6-speed manual transmission comes in. It shows the driver what gear to use in order to save fuel. (all models, except 335d)

Air vent control

Engine management signals the engine's current cooling capacity requirements constantly while driving. Rendering a permanent airstream through the radiator unnecessary. The air vents in front of the radiator open or close depending on the environmental temperature and road speed. When shut they improve aerodynamics, shorten the engine's warm-up time and so reduce fuel consumption. (320i, 325i, 330i, 320d, 325d, 330d)

Electrical steering

In comparison with conventional, hydraulic steering systems, the electrical steering only uses energy during actual steering. When the steering wheel position is constant – for example at high speed along the motorway – the electronic motor is inactive. (320i, 325i, 330i, 320d, 325d, 330d)

Tyres with reduced rolling-resistance

While driving, tyres are constantly changing shape. This uses up energy and thus fuel. Tyres with reduced rolling-resistance have an improved design and use special materials for their road treads and side walls, thus reducing deformation. (all models)

Brake Energy Regeneration

To supply a battery with electrical energy, the generator (alternator) is customarily driven using engine power, which demands permanent fuel consumption. Brake Energy Regeneration means the generator usually only generates electricity when the driver either takes the foot off the accelerator or brakes – previously unused kinetic energy is transformed in coasting mode into electrical energy before being fed into the battery. In this way, electricity is generated while coasting, without consuming fuel. (all models)

Individual BMW EfficientDynamics features may be excluded, depending on the optional equipment chosen. Your BMW partner will be pleased to provide you with more information.

And this is what's come out of it.

BMW already offers 21 models with CO₂ emissions of 140 g/km and significantly less. But that's just for starters. We're carrying on our research – in the quest to bring you more driving pleasure and less consumption.

BMW EfficientDynamics.

■ Standard equipment

□ Optional equipment

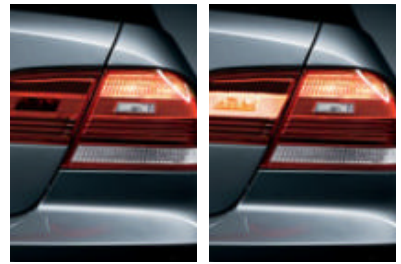

■ **Xenon headlights** with high and low-beam feature four light rings for daytime driving and automatic headlight range control. They provide the best possible illumination at night and in poor visibility. In addition, the optional Adaptive Headlights with integrated turning lights adjust to the driving dynamics, ensuring optimum illumination. In tight corners, at speeds up to 65 km/h and when the indicator is switched on, the turning lights are automatically activated, whenever the automatic headlight activation function is switched on.

■ **Headlight washing system** ensures unimpaired illumination in all weather conditions. If the windscreen wipers are activated while the headlights are on, the headlamp lenses are also automatically cleaned.

■ Ornamental **front kidney grille** with specially designed kidney grille bars in chrome. (On 320i and 320d the kidney grille bars in black).

■ **Brake Force Display** improves safety by helping other drivers deduce your braking intentions. In emergency braking, the illuminated area of the brake lights increases – so drivers in vehicles behind can instantly distinguish between gentle and full braking.

□ **Rain sensor incl. automatic driving lights control**; once activated, it automatically switches on the windscreen wipers, depending on the intensity of the rain, and controls wiper frequency. The integrated automatic driving lights control switches on the low-beam headlights as darkness falls or when entering tunnels.

□ **High-Beam Assist** supports the driver by automatically switching between high and low beam when traffic is approaching or enters the lane ahead. When street illumination becomes adequate, headlights are automatically dimmed.

□ **Trailer tow hitch** including trailer stability control, with electric unlocking via a button in the luggage compartment. If the trailer hitch is not needed, it can be folded away manually.

■ Standard equipment □ Optional equipment

■ **BMW light-alloy wheels** star-spoke 157, 8 J x 17 inch, 225/45 R 17 tyres (standard on 320i, 325i, 320d and 325d).

□ **BMW light-alloy wheels** radial-spoke 187, 8 J x 17 inch, 225/45 R 17 tyres.

□ **BMW light-alloy wheels** star-spoke 230¹ with mixed tyres, 8 J x 19 inch , 225/35 R 19 at the front, 9 J x 19 inch, 255/30 R 19 tyres at the rear.

□ **BMW light-alloy wheels** star-spoke 185, 8 J x 17 inch, 225/45 R 17 tyres (standard on 330i and 330d).

□ **BMW light-alloy wheels** V-spoke 188 with mixed tyres, 8 J x 17 inch, 225/45 R 17 tyres at the front, 8.5 J x 17 inch, 255/40 R 17 tyres at the rear (standard on 335i and 335d).

□ **BMW light-alloy wheels** star-spoke 189 with mixed tyres, 8 J x 18 inch, 225/40 R 18 tyres at the front, 8.5 J x 18 inch, 255/35 R 18 tyres at the rear.

¹ Wheel/tyre combination for an extremely sporty look with restricted suspension and primary comfort.

■ Standard equipment

□ Optional equipment

■ **Sports leather steering wheel** (369 mm diameter), depicted here with multifunction buttons (standard on 335i and 335d), three spokes with chrome trim in matt chrome Pearl Grey and thumbrest, incl. gearshift lever with chrome Pearl Grey trim and handbrake lever handle in leather.

□ **M sports leather steering wheel:** easier steering with a wider steering wheel rim. With integrated multifunction buttons (optional), allowing radio, CD drive and, if available, telephone to be accessed whilst driving.

■ **Start/Stop button** for starting the engine. After inserting your ignition key, you can start and stop the engine by pressing this button.

□ **Cruise Control** with braking function (not available on 320i and 320d) stores, displays and maintains any selected speed above approx. 30 km/h. After accelerating, the car automatically returns to the previously stored speed. Braking cancels the settings.

■ **Instrument panel** with analogue round instruments and orange red backlighting: speedometer with integrated fuel gauge, tachometer with fuel consumption display (six-cylinder petrol model also with oil temperature display), digital display for mileage and trip counter, outdoor temperature display and clock (image shows 335i).

□ **Active Cruise Control** can be programmed to maintain a set speed when the lane ahead is clear, or to reduce speed to keep a safe distance between you and a slower car in front, automatically maintaining that distance until the radar sensors detect that the lane is clear. In addition, the active braking function ensures that the desired speed is not surpassed even when driving downhill.

■ **On-board computer** provides information on average speed, average fuel consumption, current fuel consumption and range.

□ **Navigation system Business***, incl. iDrive Controller, functional bookmarks, 2-tuner reception, DVD drive and MP3 decoder. Directions are given via maps and arrows displayed on monitor. Extra function: auxiliary ventilation.

□ **Navigation system Professional***, same features as Business; plus CD drive and 8.8" monitor (pictured here) with 3D map display.

□ **TV function**, enables viewing of analogue and digital television (DVB-T) programmes on the 8.8" Control Display screen when the vehicle is stationary.

* Not available in all countries. Please consult your BMW partner.

■ Standard equipment

□ Optional equipment

□ **Park Distance Control (PDC)**, front and rear or rear only, facilitates parking and manoeuvring in tight spaces. A warning signal sounds as the car approaches an obstacle. In combination with the Navigation system, visual warnings are also shown on the display screen (see image).

□ **Auxiliary heating with remote control** (shown here in combination with navigation system Professional) – ideal in winter and on cold days. When you get into your car, the windows are already free of ice and the interior is cosy and warm.

■ **Air conditioning system**, incl. microfilter and air recirculation switch, ensures comfortable climatic conditions in the vehicle interior at any time of year, with manual adjustment of air volume distribution.

□ **Automatic Air Conditioning**, with microfilter, automatic air recirculation (AAR), solar and fogging sensor and residual heat button rapidly establishes and maintains the desired temperature in the cabin. With individual front temperature control for left and right sides temperature-controlled storage compartment in centre console, and rear cabin ventilation and air conditioning.

■ **Radio BMW Business CD**, four-channel amplifier, aerial diversity, scan function, CD drive, MP3 decoder, automatic volume control, six speakers: four treble speakers plus two central bass speakers under the front seats.

□ **Radio BMW Professional**, same features as BMW Business CD, plus two-line display for expanded representation of telephone numbers, names and audio/MP3 titles.
□ **DAB Tuner**, only in conjunction with Radio BMW Professional, navigation system Business and Professional*.

□ **HiFi system Professional LOGIC7** (pictured), with a total of 13 loudspeakers and a switchable surround function creating a luxurious soundscape within the cabin environment. The central bass concept using subwoofers makes for an authentic bass sound.

□ **HiFi loudspeaker system** with ten loudspeakers delivers outstanding acoustic quality.

□ **BMW Individual High-End Audio System**, featuring powerful speakers with exclusive neodymium magnet drivers, brings the listening experience of a live concert into your car. Volume and equalization are adjusted automatically, in line with vehicle speed (available for the six-cylinder models).

■ **AUX-IN port** to allow connection of an external audio source, such as an MP3 player.
□ **USB/audio interface** enables connection of a USB stick or MP3 player. Music titles stored on this are displayed on the radio or navigation screen and can be selected using the multifunction buttons on the steering wheel, or via the iDrive Controller.

■ Standard equipment

□ Optional equipment

■ **Window lifts**, electric at the front, pull/press switch with fingertip control, automatic open-close feature for road toll payments, all-round closing function and trap release.

□ **Bluetooth telephone preparation** incl. charging and hands-free system as well as outdoor aerial connection. Using a snap-in adapter (optional) a Bluetooth-capable mobile phone can be connected and operated via iDrive (in conjunction with the navigation system*). Information on the recommended mobile phone models is available from your BMW partner.

■ **Armrest** – front, centre. Folding, with integrated storage compartment.
□ **Armrest** – front, centre (shown here). Divided into two separate armrests; armrest can be adjusted forwards or backward, without reducing the volume of the integrated storage compartment.

■ **Six-speed manual transmission** for a very sporty drive. Smooth, with perfect ratios and precise, short-throw gearshifts. The addition of a 6th gear and the reduced spacing of gear ratios mean that you can make even more individual use of the engine power (not available on 335d).

□ **Six-speed automatic transmission** with Steptronic. The gearshift mechanism enables very fast, immaculate gear changes for truly dynamic performance (standard on 335d).

□ **Sports leather steering wheel** with gearshift paddles for even sportier gear changes (available for the six-cylinder models).

■ **Standard seats** for driver and front passenger for 325i and 325d (shown here with the optionally available Walknappa leather), partially electrically adjustable. Electrically adjustable seat height and backrest, manually adjustable for fore/aft position and manual tilt adjustment on the driver's side (optional for 320i and 320d).

□ **Electric seat adjustment**, for driver and front passenger, with electric adjustment of seat height, backrest, forward/back position and seat angle, plus memory function for driver's seat and exterior mirrors (incl. automatic parking function). Two personalised settings can be stored for the driver's seat and exterior mirrors (standard for the 330i, 335i, 330d and 335d).

□ **Lumbar support** for driver and front passenger, electrically adjustable horizontally and vertically for an ergonomically sound seating position and added back muscle support.

* Not available in all countries. Please consult your BMW partner.

■ Standard equipment

□ Optional equipment

□ **Seat heating** for driver and passenger seat (three settings). The seat surface, sides and backrest are heatable and provide a comfortable level of warmth soon after the car sets off.

■ The **electric seat belt handover** for the driver and passenger facilitates reaching and fitting the seatbelt after getting into the car, regardless of the seat position and angle of the backrest. The seat occupation detector on the passenger side only activates the belt handover arm if the seat is occupied.

□ **Sports seat** for driver and front passenger (shown here in optional Dakota leather Black). Optimum lateral support is ensured by infinitely variable electric backrest width adjustment. Thigh support manually adjustable. Sports seats are standard on the 335i, 335xi and 335d.

□ **Lights package** with vicinity lights in the door handle, exit lights at the bottom of the doors, footwell lights at the rear as well as ambient interior light (shown here) through light strips in the side door and side trim.

■ **Storage compartment** integrated in the door side trim, foldable, with integrated spectacle and coin compartment.

□ **Storage package** with two retractable cupholders above the glove compartment and storage compartment at the front; storage nets, bag holders and a 12-V power socket in the luggage compartment.

■ Standard equipment

□ Optional equipment

□ **Glass roof**, electric with slide and tilt function, wind deflector and comfort opening via the remote control.

□ **Interior rear-view mirror**, automatic antiglare function and large surface area. The glare from following vehicles is automatically reduced when the amount of incident light exceeds a defined limit. Shown here with optional digital compass function and integrated universal remote control.

□ **Interior and exterior mirrors**, automatic anti-glare, with fold-in function.

□ **Alarm system**: in the event of an attempted break-in or any tampering with the vehicle, the alarm system emits an acoustic signal and immediately switches on the hazard warning lights.

■ **Two rear cupholders**, integrated in the centre armrest.

□ **Ski bag** (in conjunction with throughloading system) for clean and safe transportation of up to four pairs of skis with up to four people on board. If the ski bag is not required, it can be tucked away out of sight.

□ **Sunblind** for rear window, electric, deflects intense sunlight and provides effective protection from prying eyes.

■ **Rear backrest**, with asymmetric 60:40 split-folding option. Each section can be folded down separately.

□ **Comfort access** for opening and closing the car without having to touch the radio remote control. You only need to have the ignition key in your pocket, briefcase or handbag, for example. The engine can also be instantly started by pressing the Start/Stop button without the need for the key.

□ **BMW Welt**: Taking delivery of a car has always ranked among the best moments for any car driver. Now that moment can become a truly unforgettable day – at the new BMW Welt, the experience and delivery centre in Munich, Germany. Visit the Museum, tour the plant or explore the Technology studio: BMW Welt brings you the true fascination of BMW. Experience more online at www.bmw-welt.com.

■ Standard equipment

□ Optional equipment

□ **M sports package:** With this special aerodynamics package the BMW has a harmonious, smoothly contoured appearance. Two kinds of BMW light-alloy wheels are available to complement this presentation. The finely tuned M sports chassis, chrome-plated exhaust pipes and high-gloss Satin Chrome lend the finishing touches. Inside meanwhile, sports seats in an exclusive cloth/Alcantara combination, an M leather steering wheel, Aluminium Glacier Silver interior trim and an Anthracite roofliner ensure a dynamic effect. This equipment package is rounded off with M entry sills, M footrest and a shortened gear lever. The exterior colour Le Mans Blue metallic is available exclusively in conjunction with this package.

M entry sills with chrome inserts and the M logo is the perfect complement to the M sports package.

M leather steering wheel: the thicker rim offers an excellent grip. The optional multifunction feature allows the radio, CD player and telephone to be operated conveniently while driving.

Sports seats: provide excellent lateral support. The exclusive combination of cloth/Alcantara in Blue Shadow underlines the discreetly sporting character of this decor scheme (shown here: optional Dakota leather Black).

BMW light alloy wheels star-spoke 193 M with mixed tyres, 8 J x 18", 225/40 R 18 front tyres, 8.5 J x 18", 255/35 R 18 rear tyres.

BMW light alloy wheels double-spoke 225 M with mixed tyres, 8 J x 19", 225/35 R 19 front tyres, 9 J x 19", 255/30 R 19 rear tyres.

Rear apron: A sporting appearance with a certain extra – the integrated rear diffuser gives improved downforce at the rear axle and increases contact pressure at high speeds.

	W	2520	2170 [2520]	2170 [2520]	2520	2520	2100	2100	2380

All dimensions in the technical drawings in millimetres.

Luggage compartment capacity 440 litres, 335i and 335d 430 litres (measured according to VDA standard).

¹ The figure quoted is based on a 90% full tank, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Special equipment increases this figure.

² The overall weight of the trailer may not exceed the maximum permissible trailer load plus the maximum permissible towbar download.

³ The petrol engines are designed for RON 98 grade fuel. They can be run on fuel down to RON 91 (for 335i not less than RON 95), with a decrease in power.

⁴ All engines comply with the EU4 standard. Fuel consumption is calculated on the basis of the ECE

driving cycle. This is made up of approximately one third urban and two thirds extra-urban driving (based on distance covered). In addition to fuel consumption, CO₂ emissions are measured.

⁵ Electronically limited.

⁶ Height of the 335i and 335d is 1,375 mm.

⁷ Rear track width of the 335i and 335d is 1,507 mm.

⁸ Only available in combination with 6-speed automatic transmission.

Figures in [] apply to models with 6-speed automatic transmission.

BMW Recycling.

Your BMW is the product of a comprehensive recycling concept. But what exactly does that mean in practice? It means that all the requirements of recycling are taken into account from the start, in the initial development of a BMW. One example is careful material selection designed to preserve resources and to ensure efficient recycling compatible with the environment. Each BMW is designed and built for simple and economic recycling after its long running life. Since 1994, we have been collecting the know-how required for this purpose at the unique BMW Recycling and Dismantling Centre (RDC) near Munich. At the same time, the BMW Group is establishing a complete network of vehicle recycling facilities within Europe, focusing in the process on the high standards of quality and environmental care that BMW is renowned for. Please contact your BMW partner on all matters regarding your end-of-life vehicle. They will be happy to help.

The models illustrated in this brochure show the specifications for the German market. In part, they include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets, alterations in models, standard and optional equipment, as described in the text and illustrations, may occur. For precise information, please contact your BMW partner. Subject to change in design and equipment. © BMW AG, Munich/Germany. Not to be reproduced wholly or in part without written permission of BMW AG, Munich.
